**Certifié en C#**
Microsoft Learning
2022-2023

**Certifié en flutter**
Viss-tunisie
2023-2024

## ABOUT ME

I'm a recent IT graduate and junior developer. I create mobile apps with Flutter and web projects using the MERN stack (MongoDB, Express, React, Node.js). I'm currently looking for an alternance to gain more experience and grow my skills in a real work environment.

## WORK EXPERIENCE

**Final Year Internship–Leadertec Engineering**
2025-2026 de 02/03/2025 à 06/03205

Development of an educational management system with the Mern battery (Mongodb, Express, React, Node.JS) following the Agile Scrum method. Use of JIRA for task management and monitoring of sprints in a collaborative framework.

**Advanced Internship – VISS Tunisie**
01/02/2024

I have created a mobile flutter application dedicated to religious memories and reading the Koran, allowing users to save spiritual moments and easily access sacred verses.

**Introductory Internship – Hotel Djerba Beach**
18/01/2023

Creation of a responsive site with the rooms, services and booking system.
Use of themes and plugins to improve display and referencing .
